CREEDMOOR.

Conclusion of the State Matches.

The Gatling Gun Won by the Seventy-ninth.

The Members of the Press Try Their Hand with the Rifle.

A stiff wind blew across the Creedmoor range sterday with sufficient force to interiere with the accuracy of the firing; but as it was constant drift of the projectiles was easily ascertained and allowed for. It did not, therefore, exercise such bad effect as the enopping wind of Wednesday. Bad weather this year has made bad scores, and as a result very little improvement will be visible in the aggregate number of points made by the teams. Some consolation may however, be found in the increased skill displayed in the use of the rifle by the rank and file, whose progress, as marked by the regimental scores, has been most satisfactory. There remain many imrovements to be made in the administration of the range before it can be made popular.

The first part of the day was devoted to finish ing up the State match and was followed by the Press and All Comers matches, in which a good deal of interest was felt. Several protests were entered in the Press match, owing to several selves as members of the press, although some, at least, of them are known to belong to other walks in life. In connection with this matter the smaller Canadian journals are much blame, as they seem to furnish journalistic certificates without much attention as to the use match, too, which was supposed to be for the bene-At of unlucky marksmen, was by some strange arrangement thrown open to the crack shots Canada and Ireland, It seems absurd allow a marksman like Dr. Hamilton or Captain Mason to shoot in a match intended to be open only to the second rate Creedmeended to be open only to the second rate Creedmoor shots. This is exercising hospitality at the
expense of the popularity of Creedmoor. If the
wast majority of the gentlemen who entered into
this match had known that they were
be shoot against the crack shots of Ireland and Canada they would certainly not
have been loolish enough to throw away
their money paying entrance fees. These are, no
doubt, errors of judgment, but they are errors that
have created profound dissatisfaction among the
majority of the Creedmoor riflemen.
The Gatling gun was won by the Seventy-ninth
regiment, but the award was disputed by the
Iwenty-second on the ground of erroneous scorling.

AMERICAN JOCKEY CLUB.

Fall Racing Meeting at Jerome Park.

The Opening Events and Some of the Probable Starters-The Horses Now in Training.

To-morrow, after an interval of four months, the gates of Jerome Park will again be thrown open and the autumn carnival of the American Jockey Club will begin. As these rices constitute one of the most fashionable events of the season, so it becomes one of the most interesting to turimen. The ladies look forward to the races with delight: strangers flock to the city to admire the horses, and the betting men know that there are but few places like Jerome for first class sport and chances of excellent investment. At the head of this popular organization are gentlemen of means and reputation, who, pledging themselves for its success, stamp the enterprise with that manly character and that social distinction for which it is now famous. Jerome Park has become the pride of the fashionable world, and spring and autumn the loveliest and best are stirred with unusual excitement when the flag of the Jockey Club floats proudly in the gentle breezes of June or in the blood-quickening atmosphere of October.

Jerome Park has put on its brightest dress, and everything is in readiness for the five day's tournament, which extends to the 17th inst. The valley is fairly alive with horses. Every morning for a long time they have been making music on the track with their preparatory gallops that they may be in readiness for the actual battles of tohave been many visitors to the Park, those who take an interest in the workings of the thoroughbreds, and on Saturday a large and brilliant crowd is expected on the grounds.

Many improvements have been made since the June meeting, and to-day there is a brightness and freshness about the buildings and fields that is in excellent keeping with the sport, and the picture, made up of high mettled horses, gaily dressed jockeys and harmless firtations under the grand stand and club house balcony. For the convenience of pool sellers and pool buyers there have been jour new stands erected to the right of the grand stand, which has accommodation for nine French pool seliers, besides the auctioneer's stand. which is of octagon shape. All are covered with handsome awnings, with drop curtains to match, to shade the crowds who surround the pool stands in making purchases. A new and convenient office for the redemption of pool tickets has been erected, with room for nine paying tellers, this number being selected that each race may be settled as soon as it is over. A stand has also been built to the right of the latter office for the use of jockeys, grooms and stable boys, whose presence

on the track during racing is not desirable.

The programme of events is most admirably ar-

ranged and cannot but please all concerned. There will be five races to-morrow, six on the 7th. five on the 10th, six on the 14th and six on the 17th inst., in all making twenty-eight events. which is certainly enough of what is good, that, when through with, both owners and spectators will be in a condition to cry, "let us have peace." On the card for the opening is marked as the inaugural race a purse of \$400, dash of three-quarters of a mile: beaten maidens allowed, if 4 years old or less, 7 lbs.; if five or more, 12 lbs. Then comes the Jerome Stakes, the great three-year-old concest of the meeting, dash of two miles, which closed with hity-two nominations July 15, 1872, of \$100 each, half forieft, with \$1,500 added by the club and \$500 in plate by Mr. Leonard Jerome—the second horse to receive \$300 out of the stakes. Almost any number of clippers are among the grand lot, but the starters are problematical, though it is certain that Mr. Belmont's gray coil steel Eyes will not be among those that will come to the post, as ne was stricken from his engagements on Wednesday last, having "a leg." Yet these may respond to the summons:—Macaroon, Acrobat, Trumpington, Grinstead, Brigand, Regardiess, Aaron Pennington, Saxon, Madge, Reform and others that will make a grand contest. Tom Bowling won the stakes last year in the unofficial time of 3:40. The third race is the Nursery Stakes, for two-year olds, dash of one mile, \$100 entrance, half forieit, with \$1,000 added; the second horse to receive \$200 out of the stakes. This closed August 16, 1873, with forty-three nominations, making a very handsome sum which the owner of the winner will secure. The number of starters will be very large, as among the entries are king Bolt, Rhadamanthus, Oiltipa, aleko, Lizzie R., Chesapeake, Bayminster and Jas. A., and other good ones, which must cause a rattling struggle. The Nursery was captured by Rutherford last year in 1:37%. Next on the programme is the Manhattan Handicap, a sweepstakes of \$50 each, half forfeit, with \$500 added; dash of one mile and a quarter. This had twenty-six nominations, cosing on the 15th of August last, and the prominent ones engaged are Gray Planet, 112 lbs.; Fadladeen, 114 lbs.; Mate, 116 lbs. On the card for the opening is marked as the inaugural race a purse of \$400, dash of three-quarsix nominations. Cosing on the 15th of August last, and the prominent ones engaged are Gray Pianet, 112 lbs.; Fadladeen, 114 lbs.; Mate, 116 lbs.; Fellowcrait, 108 lbs.; Lizzie Lucas, 104 lbs.; Catesby, 104 lbs.; Grinstead, 95 lbs.; Dublin, 94 lbs., and Attila, 98 lbs. The excellent day's sport will close with a purse of \$400, dash of one mile and an eighth, the winner to be sold at auction; those entered to be sold for \$1,000, to carry weight for age; for \$750, allowed 3 lbs.; for \$500, allowed 12 lbs.

The four days' racing which follows are each just as rich in events and character of contests as the above, and should the proverbial bright automal safes of our latitude not forsake us during the meeting, there will day after day be the beauty and grace of Manhattan Island and surrounding country to witness the several struggles. Deatty and grace of mandattan island and sur-rounding country to witness the several struggles. On Wednesday alternoon last there were at Je-rome Park the following strings in training;— MR. The delegates from this vicinity at a meeting last evening decided to start on Sunday evening for the Catholic Temperance Conven tion at Chicago on October 7. About twenty will leave this point. Bishop Foley and me clergy have arranged for a high mass at St. Patrick's church on the occasion.

Comptroller Green and Saperintendent Devoe day morning for the purpose of inspecting its miserable carriage and gangways. The market men got together in a little group and requested the Comptroller to effect some kind of improve-ment in the approaches to the market. To-night the Rev. Dr. Tigany, the Chanista of

the President of the Custed States, will lecture in Steinway Hail. The object of the lecture is two-fold. First, to awaken in the people of this city a renewed feeling of patriotism by a portrayal of the virtues and patriotic career of the Fatner of his Country. Secondly, to bring that feeling into a practical manifestation in the shape of subscrip-tions to the Washington National Monument So-ckety.

A meeting of prominent citizens was held at Delmonico's last evening for the purpose of

making arrangements for the lecture to be delivered on Tuesday evening next, by the Lord Mayor of Dublin, at the Academy of Music, in aid of St Cecelia's Roman Catholic church. Rev. Dr. Plattery presided, and much interest was manifested in the lecture. Committees were appointed and other business ttansacted. The subject will be "Oliver Goldsmith," and there is little doubt the Academy will be thronged upon the occasion.

About forty leading members of the Council of Political Reform and prominent business men held conference at Cooper Institute last evening with a view of forming a combination that would secure the election of honest and capable men to secure the election of horest and capable men to the various positions under the city government. Mr. John Stephenson was called upon to preside, and speeches were made concerning the object and the best means to effect it by Colonel Benjamin latham, Thomas K. Sanxay, General J. C. Jackson, Mr. Veten, Frederick Schack and others. A resolution was adopted aiter considerable discussion to the effect that the Council of Political Reform call a nominating convention to place suitable candidates before the public, either by running independent candidates or else by ndorsing the best men of the regular political parties.

BROOKLYN.

Hack Inspector Jones reports the receipt of \$1,260 50 for itcenses in September. The water rates received by the city for the

month of September amounted to \$38,322 11. There were 202 deaths in Brooklyn last week. being twenty more than the preceding week. The Registrar of Arrears reports the amount

received for sales of property for unpaid assess-ments as being \$46,881. According to the statement of the Clerk of Arrests, Thomas Williams, there were 2,473 persons arrested by the police in Brooklyn last month.

The Fire Commissioners report that 136 permits were granted for the erection of new buildings last month, being an increase of 110 as compared with the month of August. The County Auditor has bills of the Commissioners of Charities amounting to \$23,760, which he is

unable to pay as there is no money in the treasury applicable for the purpose. The Commissioners will require an appropriation of \$490,000 for the ensuing fiscal year.

WESTCHESTER.

Charles Odell, an old and respected resident of East Chester, while attempting to cross the New Baven Railroad track at Fourth avenue, Mount Vernon, on Wednesday evening, was struck by the locomotive of an express train and hurled a distance of about sixty feet, sustaining injuries which proved almost instantly fatal. Deceased was in his sixty-ninth year.

It will family, near New Rochelle, last December. It will be recollected that the prisoner was cleverly captured by Detectives King and Lyons in the Bowery during the month of August. The evidence against Hurley was equally as conclusive as that on which five of his confederates have already been considered, and the jury, after being out about ten minutes, brought in a verdict of guilty, whereupon he was sentenced by Judge Tappen to twenty years in the State Prison at Sing Sing.

In response to a call a few of the temperance men of the county met at Wnite Plains on Wednesday afternoon and organized by appointing G. R. Tremper chairman and E. A. Hill secretary. After an address had been read by the Chairm it was moved and seconded that the Convention proceed to nominate candidates for county offices, proceed to nominate candidates for county offices, which was carried. The motion was, however, subsequently reconsidered, and, in its stead, a committee, composed of two delegates, from each of the three Assembly districts, was appointed, whose duly it shall be to issue a call for a county convention, to meet on the 14th inst. A resolution was adopted setting forth that it is "a sin to vote for rum drinkers, rum sellers, or those who may aid and abet them."

STATEN ISLAND.

Sig. Lainfesta, of the republic of Guatemala, visited Trenton recently for the purpose of examining into the system of training in the Normal School, with a view of applying the information he obtains to the establishment of a like system of education in bis country.

A sad reminiscence of the shocking matricide at Jersey City came up in the Surrogate's Court yesterday. Letters of guardianship of Miss Myra Freeman, youngest daughter of the murdered woman, were issued to Anire Garrabrant on perittion. The murderer is now in the State Prison at Trenton. It seems certain that the sick excuses of Bread-

well, the alleged tax receiving defaulter of New-ark, will not save him from trial any longer, and that the case will be called up next Tuesday. The prosecutor has caused the witnesses to be subpended, and it is believed a capias will be issued to enjorce Broadwell's presence. It is binted that the trial will not take place, but that, forced to the rack, Broadwell will plead guity. At the Astor House in this city yesterday, quite

a large gathering of leading New Jersey demo-crats held a conference on the situation and prospects. Governor Parker, ex-Governor Randolph, senators Smith and Lattle, and leading party men from all sections of the State were there, and severally reported a state of affairs in their respective sections most encouraging to the success of their State and Congressional there is november. The politicians of Essex county are making

things lively just now. The democrate held a meeting at Newark last Wednesday and ratified Judge Bedie for Governor. Yesterday the republicans of the Sixth district, which is Essex county, met and renominated for Congress ex-Governor Marcus L. Ward. There will probably be a warm aght over the Registership, the effice being worth from \$50,600 to \$60,000.

The meeting of the Jersey City Police Commis sioners yesterday was lively. Bills were sent in for 3,600 quarts of milk, furnished to the Overseers of the Poor. One of the Commissioners (Mr. Brigham) declared that this was preposterous, as it would amount to ten quarts daily for each person receiving charity from the city. The bills of Paul Schober and J. E. Totten for beef at eighteen cents a pound were also denounced as excessive, yet they were ordered paid. There are fifty butchers in the city who are willing to furnish just as good beef for not more than ten cents a pound.
